

LIST OF NAMES ON THE UNCLAIMED SHARES PORTFOLIO

UNCLAIMED SHARES. WHAT ARE THEY?

Unclaimed Shares are share certificates which are not in the possession of their respective owners and are currently held under the Unclaimed Shares Portfolio. In order to safeguard investors' share certificates, which were previously kept by stockbrokers, the Securities and Exchange Commission of Zimbabwe (SECZIM) directed all securities dealing firms to register all share certificates in the name of their respective owners and subsequently deliver the share certificates to the owners. The directive was sent to the market on 29th August 2012. SECZIM further directed that the share certificates that remained unclaimed be handed over to custodians for safe keeping pending collection by their rightful owners. All the unclaimed shares were eventually sent to Chengetedzai Depository Company. The Investor Protection Fund has oversight of the Unclaimed Shares Portfolio. Below are the beneficial owners of the unclaimed shares:
